

Steps to revoke all JWT-Based access tokens

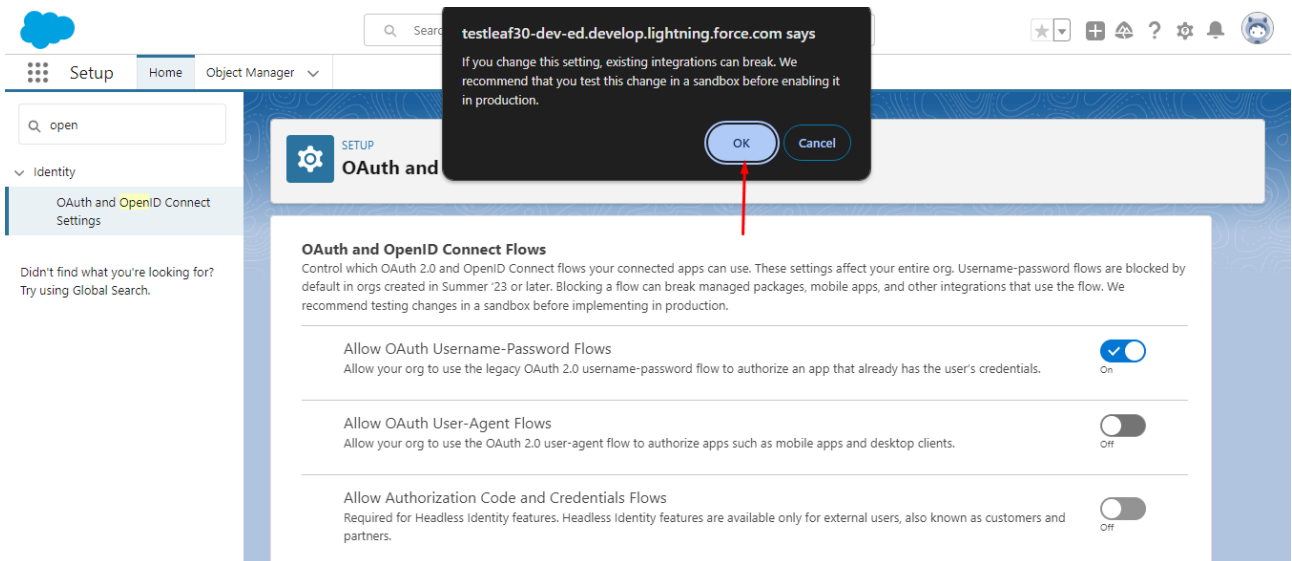

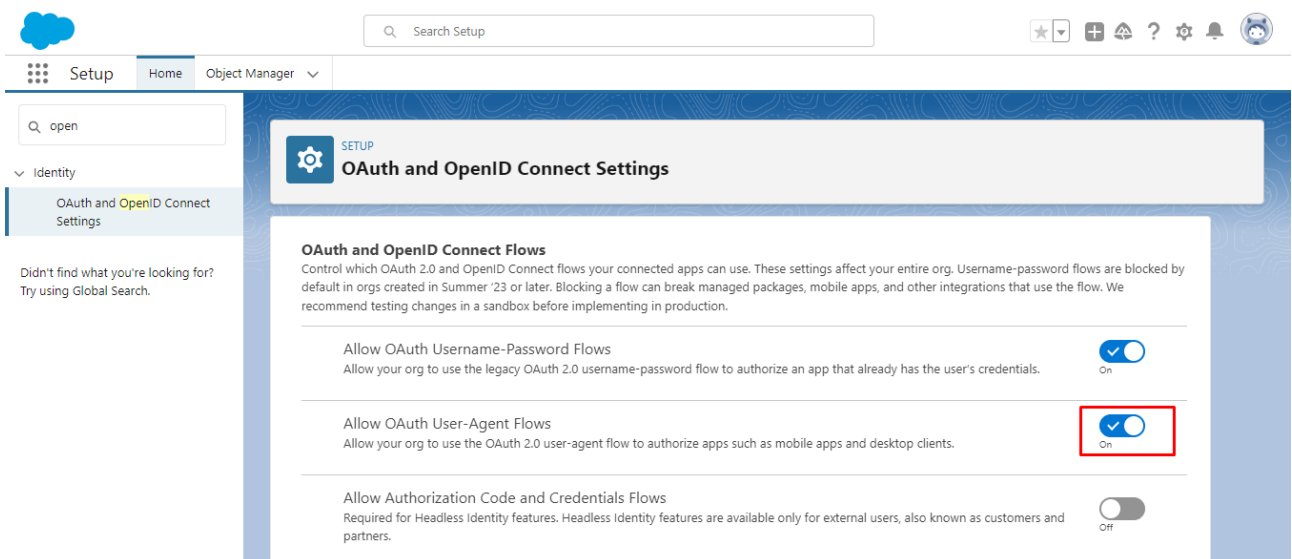

1. Login to your Salesforce account.

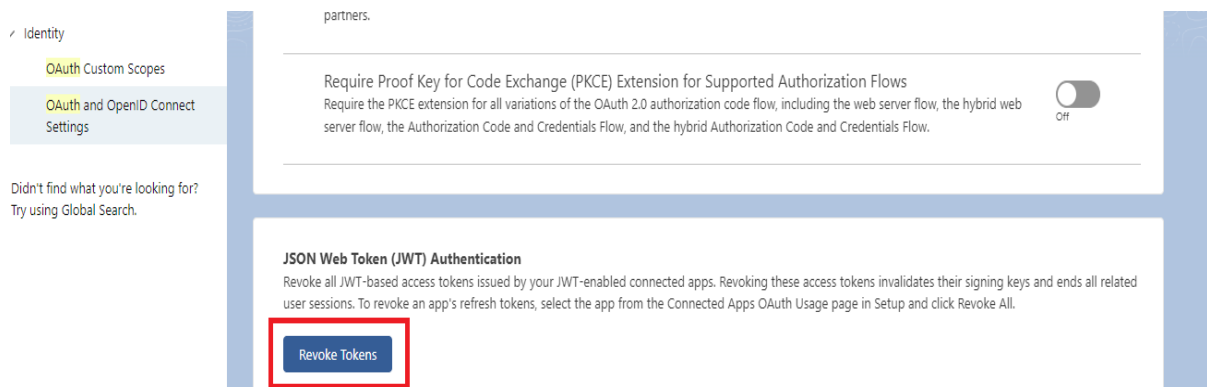

2. In the quick find search box (below the App Launcher icon), type 'OAuth' and click 'OAuth and OpenID Connect Settings'.

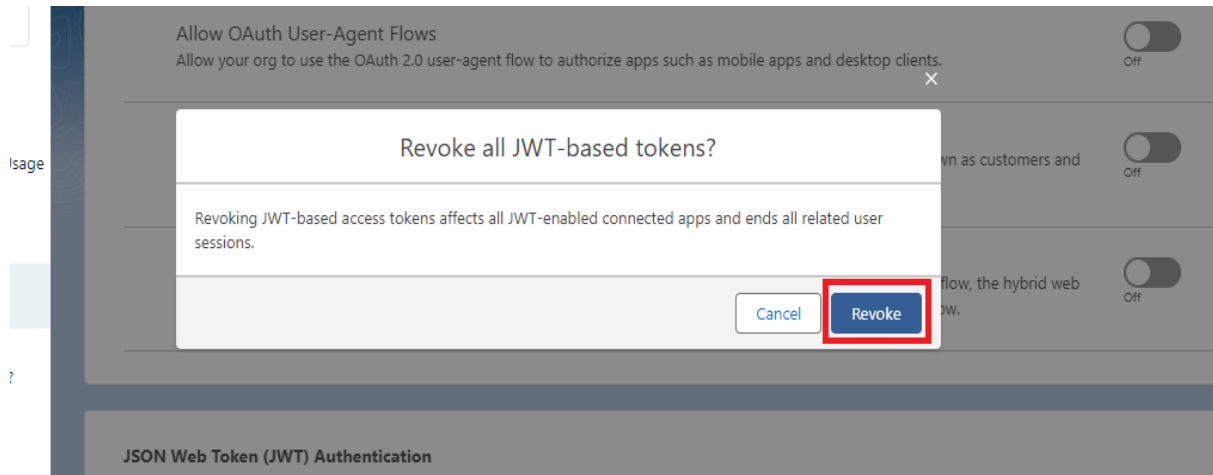

3. Enable the second toggle button and click 'Ok'.

4. When you create 'n' number of tokens, use 'Revoke Token' button. Scroll down and click 'Revoke Tokens'

5. Click 'Revoke'

6. You will get to see the success message 'All JWT-Based access tokens were revoked'.
